Relationship to Child:

Collection and Use of Information: We collect information according to the principles of the Privacy Act 2020. The school has a Privacy of Information Code which you are welcome to read. Its provisions are summed-up in our undertaking to collect information only for the purposes of providing the services we offer, to store that information safely, to give you access to (as well as the right to request amendment of) the information we hold from you, and to keep parents fully informed on all matters relating to their child's schoolwork and conduct. However, we limit the information given to pupils. The information requested has been carefully selected because we need it: failure to supply all requested information may result in an application being declined or our services withdrawn. Address and phone number details are collected at the time of enrolment and during the student's time at school so that the school can contact the parent or student as necessary. These contact details may also be passed on to the Ministry of Education and the Ministry of Social Development (MSD). This is so young people who may have difficulty finding future employment, training or further education can be identified and offered support by organisations contracted by MSD to help re-engage young people in education or training when they leave school.
